Petra® Industries Brings on goDesk® with Their Portable Travel Desktops

EDMOND, Okla. — Petra Industries, the consumer technology authority and wholesale electronics distributor, is excited to announce their partnership with goDesk, creators of portable traveling desktops.

Made in the USA, their portable desktops attach to standard luggage handles, helping customers eat a meal or work on a laptop without trying to balance their items on their legs or grab the last free table at the airport.

“Travel is a common thing today, whether for business or pleasure,” Petra President, Tate Morgan, says. “We believe goDesk will make the experience smoother for our customers needing a portable tablespace.”

Sturdy enough to handle a laptop or meal, the portable desktop has a slim profile that is lightweight and easy to store when not in use. Pop-up media stand and slide-out cup-holder add convenience while all materials used in construction are TSA approved.

To see the goDesk portable desktops or Petra’s full catalog, visit petra.com.

About Petra

Petra is the industry’s consumer technology authority—distributing products for more than 500 brands. They bring tens of thousands of top name-brand products to tens of thousands of retail/e-tail partners. Founded in 1985 with a focus on and passion for accessories, Petra serves markets with products from categories like smart home tech, gaming, outdoor tech, and more. The most sought-after hardware and add-ons in consumer technology are stocked at Petra’s 525,000 sq. ft., state-of-the-art distribution center and are distributed all over the country. Petra is a member of CTA and CEDIA. For more information on Petra, visit www.petra.com or call 1-800-443-6975. The Right Distributor Changes Everything.™
